

Are You Compliant?

Your Emergency Manual Has

- A building description and scope?
- A Risk Matrix?
- A Personal Emergency Evacuation Plan?
- Been reviewed in the last 5 Years?

Are Your Evacuation Diagrams :

- Correctly orientated?
- Complete with "You Are Here"?
- Titled "Evacuation Diagram"?
- A minimum size of A3?

Is Your Training:

- Minimum 6-monthly for all wardens?
- Minimum 12-monthly for evacuation exercises?
- Minimum 12-monthly for staff training?

Don't take the risk - If your emergency procedures are missing any of these features contact Adair to upgrade your procedures to meet current Australian Standards.

Evacuations Procedures and Diagrams Need Review!

Are your evacuation procedures up to date?
Have your diagrams had a 5 yearly review in accordance with Australian Standard AS3745?

Talk to Adair today to discuss your options and, if you wish, schedule one of our highly trained staff for a site visit to conduct an audit.

The audit will provide a report on the status of your procedures and diagrams, and provide recommendations.
