

Evacuation Diagrams Do Have an Expiry Date!

Have your diagrams expired?

Adair's Evac Diagram Auto Update Service **EDUS** is your compliance guarantee.

How it Works

Adair will regularly attend your site, and review all evacuation diagrams, and/or your evacuation manual. If an update or modification is required, we will promptly print and deliver the new versions.

- 1 Adair will place your site in our compliance system to ensure we automatically contact you when an update and review is required in line with Australian Standards.
- 2 Adair customer service will contact you to arrange a convenient time for a site visit by our technician.
- 3 Adair will update existing evacuation diagrams and evacuation plan/procedures manual as per AS3745.
- 4 Adair will print and/or laminate coloured A3 evacuation diagrams and new manual and arrange delivery to your site as required.
- 5 Adair will provide a certificate of compliance confirming the status of the diagrams.

Note: Prices include travel, mark up, review, print, delivery and site time.
